WILL TAKE SOME TIME

To Get the Army In Proper Shape to Invade Cuba.

MANY WEAK SPOTS FOUND.

Regular Army Officers Make a Timely Discovery.

ARMY EQUIPMENT IS LACKING.

Three More Moultons Will Soon Be Ready to Train Their Guns on Any Enemy That May Venture to Approach the Eastern Coast.

Washington, May 20.—With every disposition on the part of the executive to make the present war short, sharp and decisive, it is beginning to be realized that the shortcomings of our military service are so many that delays are inevitable, and that much work will be necessary to put the nation in efficient fighting shape.

Every day brings forth some weak spot that has to be strengthened or some hidden defect, such as the discovery at this late moment that every regular army officer who accepted a volunteer appointment would forfeit his commission in the regulars, and so become liable to be left out of the service entirely at the end of the war.

Few officers cared to risk their future in that way, so a rush was made towards congress to secure the necessary corrective legislation. Again it has been found that the equipment of the army, small as it is in comparison with the great army of the rebellion, is sadly lacking.

Nearly a month after the formal declaration of war the war department purchased a number of shelter tents, and it has just secured the hammocks that experts say are essential to existence in Cuba.

To maintain the army of 200,000 men for six months will cost \$30,000,000, according to estimates prepared by Paymaster General Stanton, and the leading officials are beginning to fear that hostilities may run along beyond this period.

The reason is the growing conviction on the part of some of the officers that they must not reckon on any substantial assistance from the Cuban rebels in this campaign, and moreover, must met the Spaniards in Cuba in their strongest sphere, that of the deficiency.

Naval authorities are relieved of a good deal of embarrassment by the consent of the French authorities at Martinique to allow the scouting vessel Harvard to remain in St. Pierre until her repairs are completed.

Work on the three monitors Mahopac, Canonicus and Manhattan, at League Island, has advanced so far that the department expects to have them in service within a week or two. They have been supplied with tubular boilers in place of the rusted out boilers they have carried since the war. These monitors will be a valuable addition to the coast defense ships.

Mr. Niblack, late United States naval attache to Berlin and Rome, reported at the navy department and had some amusing stories to tell of his experiences in every seaport of Europe trying to buy a ready-made navy in 30 days.

Cadiz Fleet to Sail.

Madrid, May 20.—Admiral Comara's squadron, consisting of the battleship Pelayo, the first-class armored cruiser Carlos V, the auxiliary cruisers Patriota and Rapido, formerly the Hamburg-American line steamers Columbia and Normannia; the cruiser Alfonso XIII, the cruiser Antonio Lopez, three torpedo boat destroyers and the armed yacht Giraldia, will shortly sail from Cadiz, while the reserve squadron, consisting of the Vittoria, Numancia, Lepanto and another vessel, will be organized immediately.

First Corps Completed.

Chickamauga National Park, Ga., May 20.—With Thursday night's arrival the three divisions of the First provisional volunteer army corps was completed. The arrivals completely blocked the railroad yards, but the officials of the various roads worked harmoniously to relieve the congestion. There were at the park at 6 o'clock Thursday night 24,000 men. The quartermaster's department has received all the supplies needed in the matter of tents, uniforms, ammunition, food supplies, etc.

Fired Eighty Shots.

Madrid, May 20.—An official dispatch received from Havana says that some American ships fired 80 shots during the reported recent bombardment of

Santiago de Cuba, "but no damage was inflicted." The dispatch adds that the batteries at Santiago de Cuba replied to the fire of the ships and that "one of the latter was damaged."

Canadian Regiment Offered.

Chicago, May 20.—Lieutenant Colonel George A. Baynes has offered the president a full regiment of trained Canadian-American soldiers, most of whom have been connected with the British army, for use in the Philippines. He says he can fill a second regiment on short notice.

Bombarded By Spaniards.

Vancouver, B. C., May 20.—It appears from information brought by the Empress of India that the Spanish did little bombing on their own account in the Philippines about a fortnight before Admiral Dewey silenced their fleet. About the middle of April says a Manila report, a Spanish warship went down to Cebu, where it bombarded the city. The troops met no opposition on landing, the rebels having absconded before a shot was fired, taking with them, it is said, \$200,000 in cash. About 30 natives were killed in the bombardment, but no European casualties are reported. The foreigners in business in Cebu hoisted their national flags over their premises and these were respected by the Spanish admiral.

Made No Salute.

Madrid, May 20.—It is announced in a dispatch received here from Havana that the German warship Geier has arrived there. The dispatch adds: "She did not salute the American squadron either with her guns or flag, but she paid the usual salutes to the forts here and her commander landed and visited Captain General Blanco, Admiral Mantecola and the president of the colonial government. The visits of the commander were lengthy and were marked by extreme cordiality. The Spanish authorities returned the visits."

Secured a Coal Station.

London, May 20.—A dispatch from Montreal published says Senor Polo y Bernabe has secured by cable a coal depot near St. Pierre, Miquelon Island, the French colony off the coast of Newfoundland, at which the Cadiz squadron will coal, previous to attacking the Atlantic seaboard of the United States, while the Cape Verde squadron, commanded by Admiral Cervera, draws off the squadrons commanded by Rear Admiral Sampson and Commodore Schley.

Two Torpedo Boats.

London, May 20.—Mail news received here from Las Palmas, Canary Islands, under date of May 7, says two Spanish torpedo boats arrived there covered with salt, as after a long voyage. Only old men and boys are available at Las Palmas for handling cargoes. All the rest of the men have been conscripted.

Wheeler's Request.

Montgomery, Ala., May 20.—Major General Joseph Wheeler has made a personal request to the president that he be authorized to call for a regiment of volunteer cavalry in Alabama. The regiment has already been organized. Colonel A. A. Wiley of this city will have charge of the proposed regiment.

Terror Ready to Leave.

St. Pierre, Martinique, May 20.—The Spanish torpedo boat destroyer Terror, at Fort de France, has completed her repairs and is ready to leave at any moment. The Spanish ambulance ship Alicante changed her moorings from the inner to the outer harbor in order to take on coal.

Watching Harbor Approaches.

Madrid, May 20.—Special navy and military vigilance committees have been formed to watch the approaches to Spanish harbors. The reasons for this are unknown, but possibly there are fears of an American naval raid or there is a prospect of European complications.

In the Red Book.

Madrid, May 20.—Red book has been published containing diplomatic documents referring to the events beginning with the arrival of General Stewart L. Woodford, the United States minister at Sebastian, and ending with the rupture of peace.

ot by Spaniards.

Gibraltar, May 20.—A number of British soldiers, while out boating, attempted to land on Spanish territory, whereupon a sentry fired upon them and wounded one man.

Her Condensers Disabled.

San Francisco, May 20.—On account of a trivial accident to her condensers, the Charleston put back to Mare Island for repairs. She will not get to sea for two days.

Coal at Gibraltar.

Madrid, May 20.—The Spanish correspondents say that Gibraltar has received within a fortnight 100,000 tons of coal and large quantities of ammunition.

THE TROOPS SELECTED

To Accompany the Philippine Expedition.

LUZON IS TO BE OCCUPIED.

That Much Is Admitted by the Government, and Officers Have Been Selected to Take Charge of Affairs.

Washington, May 20.—The regular troops which are to accompany the expedition to the Philippines were determined upon by the war department and orders for them to proceed promptly to the coast will be issued.

These, with the volunteers from California, Colorado, Kansas, Minnesota, Montana, Nebraska, Oregon, Utah, Wyoming, North and South Dakota and Idaho, will make up the sum total which are to be taken to reinforce Admiral Dewey and enable him to take and hold the city of Manila.

The public admission that the occupation of the island is intended was made known on order of the department detailing several officers for duty in that connection.

The quartermaster's department reports that the four ships which have been chartered for the transpacific trip should be ready to sail inside of 10 days at the most. The City of Peking, which will get off first, is almost ready.

NO NEW ORGANIZATION

Will Be Permitted to Join Army Under the Volunteer Act.

Washington, May 20.—A number of applications have been received at the adjutant general's office for copies of muster rolls with which to form the nucleus of national guard organizations in the various states to take the places of commands absorbed by the recruiting in the volunteer army.

These applications come from persons whose intentions the department officials say may be all right, but who apparently fail to comprehend the provision in the volunteer act bearing on the subject of the admission of new organizations of the volunteers shall be so recruited as to maintain them as near to their maximum strength as the president may deem necessary, and no new organization is to be accepted into service from any state, unless the organizations already in service are as near to their maximum strength of officers and enlisted men as the president decides shall be the case.

This provision, it is explained, is intended to prevent a condition of affairs similar to that which existed in the war of the rebellion, when the veteran regiments, depleted by active service on the battlefield, were not recruited again to their full strength, but new regiments were constantly added to the army.

This latter practice was reprehensible in that it thrust raw and undisciplined men forward into new organizations, instead of recruiting them to the older and established veteran regiments.

It is pointed out that few, if any, of the regiments of the volunteer army are recruited to their maximum strength, and that if additional volunteers are called for they would be used first of all to bring these regiments up to the legal number provided by law. Many of the regiments contain less than 1,000 men, whereas their maximum strength is in the case of the Infantry over 1,300 men.

Another bad feature of the admission into the volunteer army of the new organizations is that it results in a proportion of officers to soldiers much larger than is contemplated by law, which will not occur if the men are recruited into the older regiments.

More of France's Perfidy.

St. Pierre, Martinique, May 20.—The British steamer Twickenham, with 2,000 tons of coal, has arrived at Fort de France. It is reported that a contract has been made with the Spanish government under the terms of which the Twickenham is to furnish coal for a two months' basis at Fort de France. The French government has thus far refused to allow the Alcantara to coal from the Twickenham, but the Spanish consul has obtained permission for a five days' wait for the Twickenham before clearing at customs.

To Chastise Dewey.

Madrid, May 20.—The government intends to increase the means of defense of territories exposed to foreign greed, and is considering the necessity of keeping a basis of operations in Spain. In the Philippines a majority of the people are loyal and the Americans and their few native allies are unable to conquer another acre of soil. Spain will therefore keep at home the 7,000 troops intended for the Philippines until further notice and will imme-

dately send the Cadiz reserve squadron to Manilla to chastise Dewey.

Conquering the Insurgents.

Hongkong, May 20.—It is reported here that the Spanish governor of the Philippine Islands is conciliating many of the insurgent chiefs with high appointments, while other chiefs are succeeding in federating the rival tribes.

Arrived Off Havana.

Madrid, May 20.—It is rumored in Madrid that the Spanish Cape Verde squadron, commanded by Admiral Cervera, has arrived off Havana.

Young Lee Appointed.

Washington, May 20.—Fitzhugh Lee, Jr., of Virginia was appointed to the engineering department of the volunteer army.

Left for Tampa.

Milwaukee, May 20.—The First regiment, Wisconsin national volunteers, left at 10 a. m. to Tampa, Fla.

At Santiago de Cuba.

Madrid, May 20.—The Spanish squadron has arrived at Santiago de Cuba without accident.

The Report Confirmed.

Madrid, May 20.—A direct message from Santiago de Cuba confirms the arrival of the Spanish squadron.

JAPANESE COMMERCE.

Trade Between the United States and the Orient Has Increased.

Washington, May 20.—The commerce of the United States with Japan has grown more rapidly during the past year than that of any other nation.

"The annual returns of the foreign trade of the empire of Japan" just received by the bureau of statistics shows that the imports into Japan from the United States increased from 16,373,419 yen in 1896 to 27,030,537 yen in 1897, while her exports to the United States increased from 31,532,341 yen in 1896 to 52,436,404 yen in 1897.

Only three countries, viz: Great Britain, China and British India made as large sales to Japan as did the United States in 1897, and in no case was the increase in imports as large as that from the United States.

The gain which the United States has made over other parts of the world in supplying Japan with her imports is shown by the fact that the imports from the United States increased 65 per cent in 1897 over 1896, while in total imports from all parts of the world the increase of 1897 over 1896 was only 28 per cent.

The gain of Great Britain, our chief competitor, was only 10 per cent.

Will Not Bombard the Canaries.

London, May 20.—The agent in the Canary islands of a Liverpool firm writes that the British consul there has been informed that the United States will not bombard the Canary Islands, as the result of an arrangement between Great Britain and the United States whereby, while Great Britain remains neutral, the United States will abstain from such a bombardment, which would mean great destruction of British property.

Bungalows Burned.

Victoria, B. C., May 20.—Newscomes from New Zealand of an outbreak of Maoris near Ohoewai. The authorities attempted to make the Maoris pay a tax on each of the large number of dogs they have around the village, whereupon the natives went upon the warpath and burned many of the bungalows of the white residents in the vicinity, besides roughly using the occupants. It is understood that no lives were taken.

Hoisted a Rebel Flag.

Victoria, B. C., May 20.—Advices from the South sea state that at a great meeting of rebels at the seat of government in Samoa, the rebel party hoisted a new flag with one white stripe between two red stripes. It is said that the hoisting of the flag was merely a device to give the new dominant rebel party renewed life.

Declines to Accept.

Paris, May 20.—Senor Leon y Castillo, Spanish ambassador to France, who has been tendered the foreign office portfolio in the reconstructed cabinet of Senor Sagasta, has replied to Senor Sagasta declining to accept.

The Royal Arcanum.

Cleveland, May 20.—The supreme council of the Royal Arcanum adopted resolutions of eulogy upon Gladstone. A resolution was referred providing that the local councils keep up the dues of all members who have gone to the war.

Used the Same Stamps.

Massillon, O., May 20.—John Slack of Columbian county was brought before United States Commissioner Folger on a charge of using the same cigar stamps twice. Slack was not ready for trial, and in default of bail, was committed to the Cuyahoga county jail.

EVANS WAS CENSURED

His Pension Rulings Are Not Satisfactory.

INDIANIANS TAKE ACTION.

They Charge Him With Being as Unfriendly to the Soldiers as Were Both Hoke Smith and Judge Lochrane.

Columbus, Ind., May 20.—This has been the biggest day Columbus has experienced. Twenty-five thousand people attended the state grand encampment of the Grand Army, Woman's Relief corps, Ladies' Grand Army of the Republic, Sons of Veterans and Ladies' Aid Society auxillary.

The parade was the largest of any previous encampment, and this was the largest of any previous encampment, and this was followed by the largest and finest industrial parade ever witnessed here. Columbus only has a population of 10,000, and is by one-half the smallest city that ever undertook to entertain the encampment. The encampment for 1897 goes to Terre Haute.

The resolutions first adopted by Sol Mereditz post of Richmond censoring H. Clay Evans, commissioner of pensions, and calling for his removal, because of his censorious rulings bearing upon applications for pensions, was submitted and adopted. The resolutions were emphatic in condemning H. Clay Evans, because he had not only not ameliorated the condition of things bequeathed to him by Hoke Smith and Lochrane, but had added additional burdens.

Plea For Home Missions.

Winona Lake, Ind., May 20.—The one hundred and tenth session of the general assembly of Presbyterian churches was called to order promptly and opened with prayer by Dr. Sheldon Jackson, the retiring moderator. The moderator's sermon was an earnest plea for the work of home missions, to which he has devoted his life. It was heard with great interest throughout. The petitions that God should speedily bring a termination to the present conflict was greeted with a deep chorus of amens.

Black Diamond Heard From.
SHARPSBURG, KY., May 18.—(Special)—General William Kirkby, of Toledo, O., President of the proposed Black Diamond railway system, is here for the purpose of locating the depot for this town. This road, in Kentucky, is to pass through Ghent, Warsaw, Sadieville, Cynthiana, Sharpsburg, Irvine, Manchester, Barboursville and Jellico Narrows at the Tennessee State line, and will be double-tracked the entire distance from Indianapolis, Ind., to Port Royal, S. C. Construction will begin about October 1, and work will be pushed rapidly, so as to have the road in operation by 1900. Sharpsburg has subscribed \$5,000 to the promoting fund, and has guaranteed the free right of way through this county. The survey through this county was recently completed.

Decision in the Riggs Case.
The Court of Appeals, in reversing the Riggs case, says:

While upon trial for murder it was competent for either the prosecution or the defense to show that the deceased was circulating a report charging defendant with incest, still it was fatally erroneous to permit the State to introduce proof tending to establish the truth of such charge, as it was not in issue on the trial and had a tendency to mislead and prejudice the minds of the jury.

WAR SIGNALS FOR FARMERS.

The Railways Arranging to Carry the News of Victories and Defeats.

If plans under consideration are perfected, so it is announced, the trains of the great railroads of the United States will become disseminators of war news, bearing at fastest speed news of American victories or defeats. The plan was hatched several days ago, and already some of the largest railroads have agreed to take part in it.

It is proposed to carry the news to the country districts by means of flags flying from trains. For this purpose, various pieces of bunting will be provided the train crews, and instructions as to the proper means of displaying them will be issued to all agents and dispatchers. Codes explaining the signal system will be distributed by each road to the districts through which it passes, in order that the people may be able to read the messages. It is contemplated to give only meager information of a victory for American or Spanish arms, though the signals will show whether the victory is on land or sea. A United States flag with a blue pennant above will show a victory for the American navy.

The Rock Island, Burlington, Illinois Central, Northwestern and Baltimore and Ohio roads have adopted this scheme.

A Haunted Railroad Car.

[Paris Reporter.]

Every one has heard of haunted houses, but the railroad men know there are haunted cars as well. For instance, on the L. and N. there is a caboose known as "1908," which carries on in the most supernatural manner. What do you say to a caboose that suddenly begins to shake and shiver like a man with the ague, and this, too, when it is standing alone on the track? My informant solemnly asserted, so that "1908" is subject to attacks of hysteria. It jumps up and down without the slightest provocation. He says it did the most remarkable thing, however, one day near Richmond. It was standing on a siding with all brakes set. All at once it started and ran up grade, over an embankment into a field.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky. Sold by J. Jas. Wood, druggist."

MAYSVILLE HONORED.

Sir Knight R. P. Jenkins Chosen Warden of the Grand Commandery.

List of the New Officers—The Reception Last Night a Brilliant Affair.

The Grand Commandery of Kentucky, K. T., has honored another Maysville man.

At Thursday's session Sir Kt. R. P. Jenkins was chosen Eminent Grand Warden, and is thus placed in line of promotion to the highest office in the gift of the Grand Commandery.

The election resulted as follows:

Very Eminent Grand Commander—C. C. Vogt, Louisville.

Right Eminent Deputy Grand Commander—James T. Hedges, Cynthiana.

Eminent Grand Generalissimo—J. B. Orndorff, Russellville.

Eminent Grand Capital General—Henry T. Jefferson, Louisville.

Eminent Grand Prelate—F. H. Johnson, Louisville.

Eminent Grand Senior Warden—Geo. A. Lewis, Frankfort.

Eminent Grand Junior Warden—Thomas J. Smith, Bowling Green.

Eminent Grand Treasurer—David P. Robb, Versailles.

Eminent Grand Recorder—L. D. Croninger, Covington.

Eminent Grand Standard Bearer—J. Speed Smith, Richmond.

Eminent Grand Sword Bearer—John W. Laudrum, Mayfield.

Eminent Grand Warden—R. P. Jenkins, Maysville.

Eminent Grand Sentinel—W. R. Johnson, Lebanon.

Louisville was chosen as the place of the next conclave.

The new officers were publicly installed at the M. E. Church last evening, the services beginning at 7:30 and lasting about an hour. It was an interesting and very pleasing feature of the week's program, and was witnessed by a large crowd. The church was handsomely decorated, with the Templar and National colors. Most Eminent Grand Master Thomas of the Grand Encampment U. S. A. officiated, and was assisted by Past Grand Commander Wm. Ryan who acted as Grand Marshal. The opening prayer was by the pastor, Sir. Kt. Rev. F. W. Harrop.

A fine musical program was rendered by a choir consisting of Dr. P. G. Smoot, Mr. G. S. Judd, Mr. and Mrs. J. Foster Barbour, Mrs. Robt. Cummins, Miss Florence Hays, Miss Lida Burgess and Mr. Elgin Smoot, of this city, Miss Ella D. Martin, of Lexington, and Miss Bertelle, of Louisville, with Miss Lida Berry and Mrs. C. E. Geisel as accompanists. The audience was especially favored with solos by Miss Bertelle and Miss Martin. The latter is a cousin of Mrs. John H. Hall, of this city, and has a very sweet voice. Miss Burdelle is one of Louisville's most talented vocalists.

At the conclusion of the installation, Grand Master Thomas mentioned the fact that ten years ago in the opera house recently destroyed, he had installed the officers of the Grand Commandery. On that occasion the choir sang a hymn ("God be with you till we meet again") the sweet recollection of which still lingered with many Knights. He asked the choir to close the present services by singing that hymn. This was done, the audience joining in the closing verse, after which the benediction was pronounced by Rev. Harrop.

The reception given the Grand Commandery by Maysville Commandery last evening was a most brilliant success in every particular.

The beautiful temple was thrown wide, ablaze with thousands of lights, and one moving mass of handsome, richly-attired women and men,—the flower of Kentucky and adjoining States. Nothing was left undone to make this the supreme honor done our guests, and their appreciation was both expressed and proven,—as was happily expressed by Grand Commander Eugene A. Robinson. The banquet rooms were thrown open from the start, "on the continuous performance plan," and indeed this was the only way to serve so vast a throng.

ful music, and the light fantastic was tripped full merrily until the utmost limit of time,—2 o'clock being the hour the City of Louisville left with her charming freight of humanity for home.

In all respect we would beg leave to mention a sight that evoked the admiration of the entire assembly. It was when "Daddy" Ryan, the charming old gentleman who with his gracious and lovely wife have been the center of attraction in all the social functions of the week, took her tenderly in his arms and with grace and dignity swung out into the circle of waltzers. Young ever in heart and sympathies; old only in charm and grace and wisdom, may they waltz on together for many, many years!

It is impossible to note the names of every one present, so the reporters arranged between themselves to divide the honor. Our neighbor contains a list of our guests. We serve up our own to our own, proud in the consciousness that they held their own with the handsomest and most distinguished guests we have had the honor to entertain for many a day. Our gentlemen will excuse our passing them over as their toilets did not present the infinite variety that those of their wives and sweethearts did:

Friday's Cash Sale.

Dainty and artistic FANS from far-away Japan. There are 500 of the Fans. All of them are made and ornamented in the inimitable Japanese fashion. Some bear figures of strange and fantastic birds and animals. On some beautiful chrysanthemums and cherry blossoms bloom almost as natural as life. Others again are decorated with men and women in the artistic garb of the Japanese. Each one of them is worth commercially as much again as our price—another trumps for cash. Judged by the standard of art excellence as understood in America these Fan prices are not one-tenth of true values. Just think of figures like these for really artistic and picturesque fans—

A Maysville Boy Writes Interestingly of the Attempt To Land Arms For Insurgents.

[Correspondence BULLETIN.]

[On the high seas at six bells (10 a.m.) on Morgan Line steamer Gussie May 16th, 1898, sailing northwest bound for Port Tampa, Florida]

On the 13th inst. while in Cuban waters, I wrote you a letter giving a brief account of our movements up to that time. Win. Scoville, of the New York World, came aboard and kindly offered to mail it for me. Hope you have received it before this time.

Well, to continue my narrative started in my other letter. After our failure and battle on the 13th we put to sea for a cruise, intending to make another attempt to make connection with the insurgents and land our cargo on the early morning of the 14th. We, of course, had the aid of two gunboats—the Manning and the Machias, also that of two dispatch boats—the Wasp and the Hudson. By agreement they patrolled the coast in advance of us and we all met about ten miles off Havana. The result of their advance scouting was that no insurgents could be found anywhere near the place previously agreed upon for delivery of our cargo, but on the contrary they found the whole coast occupied by the Spanish troops. After our teasing them by cruising up and down the coast for three days previous within 200 miles either side of Havana it was no wonder.

After our teasing them by cruising up and down the coast for three days previous within 200 miles either side of Havana it was no wonder.

After consultation it was decided for our vessel to return to Key West, which we did, and for the gun boats of the blockading fleet to sail up and down the coast and bombard everything in sight. The Spanish lose from the coast bombardment by our ships, of course, will never be known.

On Saturday, the 14th, we had information of our torpedo boat Winslow sailing around Cardenas harbor. The Winslow cut off a Spanish gunboat from Cardenas but alas! ran too close to shore and was shelled by a Spanish masked battery, considerably damaging the Winslow and killing Ensign Bagley and four sailors.

While the battle between our torpedo boat and the Spanish was going on the attention of our gun boat, the Wilmington, was drawn to it and she immediately went in for revenge, disabling the Spanish boat, laying the masked battery in ruins, shelling the city and surrounding country, and as I have heard completely destroying the city by setting it afire.

Our ship arrived off Key West at 10 p.m. the 14th, but on account of submarine mines and torpedoes and war regulations we were not allowed to enter the harbor, it being after the prescribed time for en-

A Magnificent Display of Clothing, Gent's Furnishings and Shoes, is That of Hechinger & Co., the Oddfellows' Hall Clothiers.

Among the many elegant city-like business houses in our town that of HECHINGER & CO. ranks among the A 1. Nowhere will you find an establishment of its kind that carries a more elegant line of merchandise pertaining to their business than they do. With them you find Suits for Men, Boys and Children that are perfect gems in the art of ready-to-wear Clothing. Their stock of

**Shirts, Hats, Ties
COLLARS,
ETC.,**

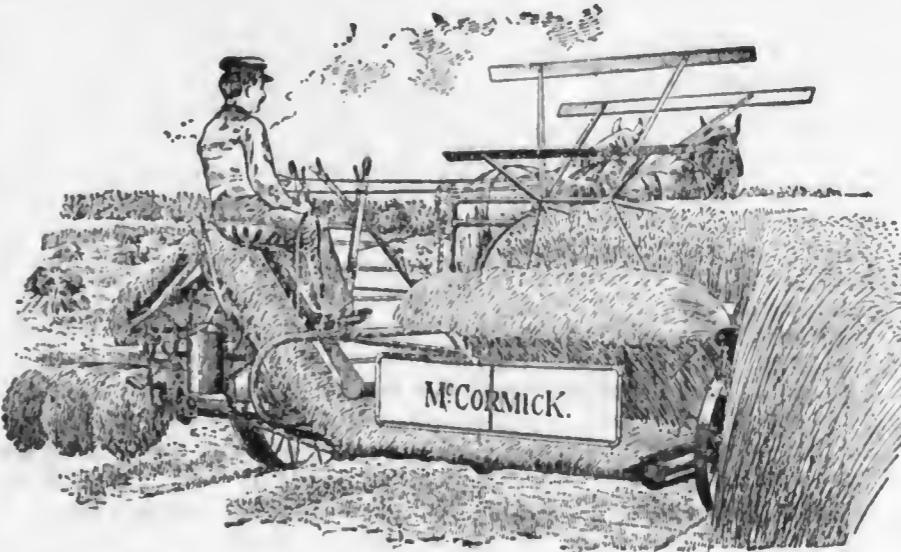

is perfectly bewildering in the number of styles and fashions. In MEN'S FINE SHOES the house stands pre-eminent.

Visitors in our city during this week after looking at the display HECHINGER & CO. make in their windows will agree with us that their mammoth establishment would be an honor to cities many times larger than Maysville. We can safely add that all visitors that call in at their store will be cleverly treated.

COL. THOMAS SOWARD.

An Ex-Citizen of This County Figures as Plaintiff in a Suit for Divorce at Perry, Oklahoma.

PERRY, OK. T., May 18.—Colonel Thomas H. Soward, a prominent lawyer of this city, sued his wife, Lillie E. Soward, for divorce to-day.

Colonel Soward is from Mason County, Kentucky, and during the war of the rebellion was a Colonel of the army, and belonged to General Phil Sheridan's staff. He was a prominent Republican politician in Kentucky and intimate friend of Governor Bradley. He came West some years ago and wedded at Winfield, Kan. His wife was a well-known New York lady.

Colonel Soward has filled numerous important political positions of trust, and was for years Chief Commander of the G. A. R. of Kansas.

Colonel Soward alleges in his petition that his wife is guilty of gross neglect of duty.
